

GSA submits the following responses to the Order dated March 21, 2013 from the United States District Court for the District of Columbia regarding the National Law Center for Homelessness and Poverty, et al. v. United States Department of Veterans Affairs, et al.

**GSA shall produce to plaintiffs, on an annual basis, a list of properties that are reported as “excess” or “underutilized” for the purposes of the FRPP but that have not been reported to GSA as excess through Title V**

Enclosed is a list of Federally owned assets located in the United States, the District of Columbia, or U.S. territories from FY 2015 FRPP data with a status data element of the following:

- Report of Excess Submitted, defined as an asset where the agency has submitted a report of excess to GSA and is pending.
- Report of Excess Accepted, defined as an asset where the agency has received an acceptance of the report of excess from the GSA disposal office.
- Determination to Dispose, defined as an asset where the agency has made the final determination to remove the inventory pursuant to independent statutory authorities. This category includes demolitions, regardless of authority.
- Cannot Currently be Disposed, defined as an asset that has no long term need however it “cannot currently be disposed” due to certain circumstances, such as environmental remediation, historical status, etc.

The FRPC consider these 4 status categories to be the equivalency of excess for the purpose of FRPP reporting. GSA has compared the list with those properties reported as Excess by agencies to GSA.

Enclosed is a separate list of Federally owned assets located in the United States, the District of Columbia, and U.S. territories with a utilization data element of “underutilized” or “unutilized.” The definition of the categories of utilization for FY 2015 FRPP reporting came from the McKinney Vento Act.

See the file ***FRPP FY 2015 NLCHP report.xlsx*** for the list of assets described above. There are two tabs in the file. One tab titled ***Excess*** contains the list of the excess assets, while the second tab titled ***Underutilized*** contains the list of underutilized assets.

GSA provides the following FRPP data elements for each asset:

FRPP Data Element #	FRPP Data Element Name
1.	Real Property Type
2.	Real Property Use

3a.	Legal Interest Indicator
4a.	Status Indicator
6.	Reporting Agency
8a.	Acres
8b.	Square Feet
8c.	Structural Size
8d.	Structural Unit of Measure
14a.	Street Address
14b.	Latitude
14c.	Longitude
15.	Real Property Unique ID
16.	City
17.	State
18.	Country
19.	County
21.	Zip Code
22a.	Installation ID
22b.	Sub-Installation ID
22c.	Installation Name

Further information on each of the FRPP data elements can be found in the FY 2015 FRPP data dictionary which has been provided as a reference document.
